- Avoid issuing additional debt

FY2019 Tax Policy

- Recognize that state-sanctioned tax formulas in Chapter 26.04 of the Tax Code provide abatement of taxes to the energy industry and its beneficiaries because mineral values are not treated like (other) New Improvements (see Line 21 of the Truth In Taxation tax rate worksheet)
- Maintain the property tax rate at .46937 to avoid abatement of property taxes to the oil and gas industry
- Recognize that Mineral Value is volatile and is not a dependable source of revenue over the long term

Tax Base Comparison: Eagle Ford Shale Era

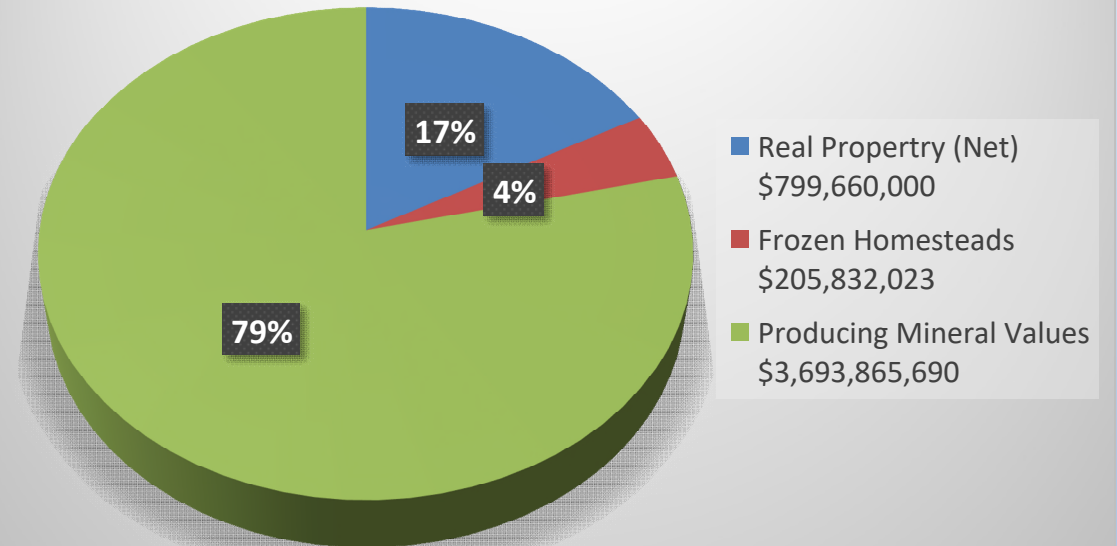

2011

Percentage of taxable property

2018

Percentage of taxable property

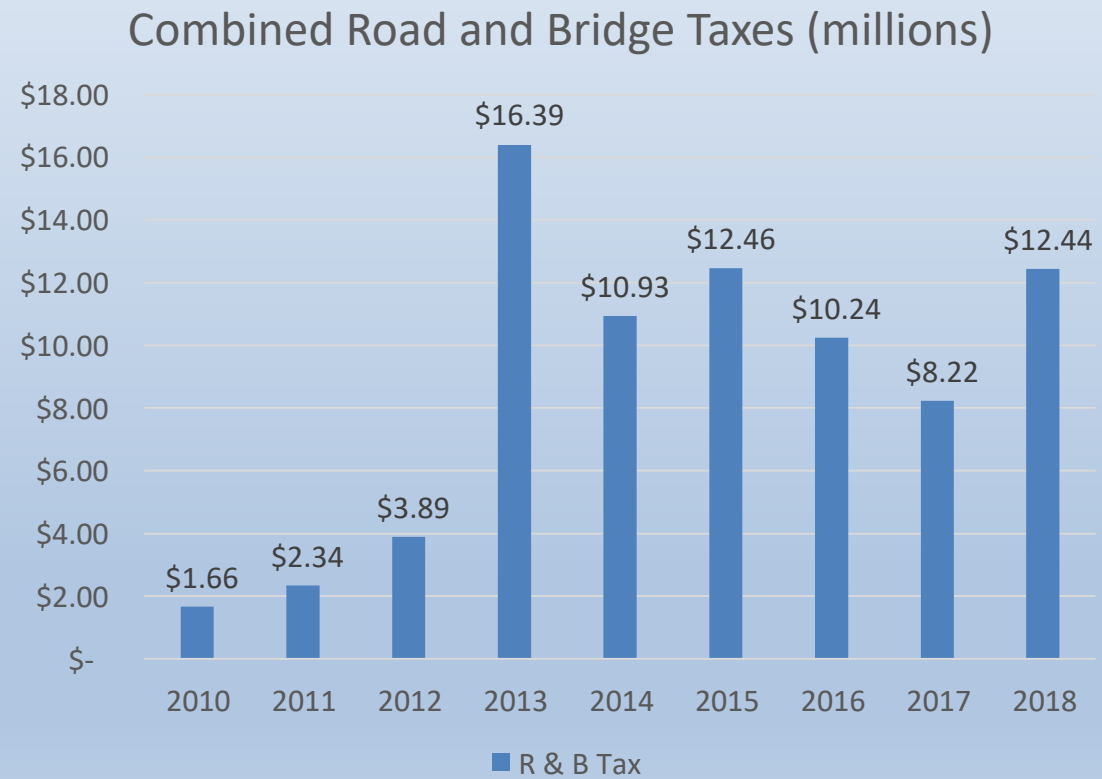

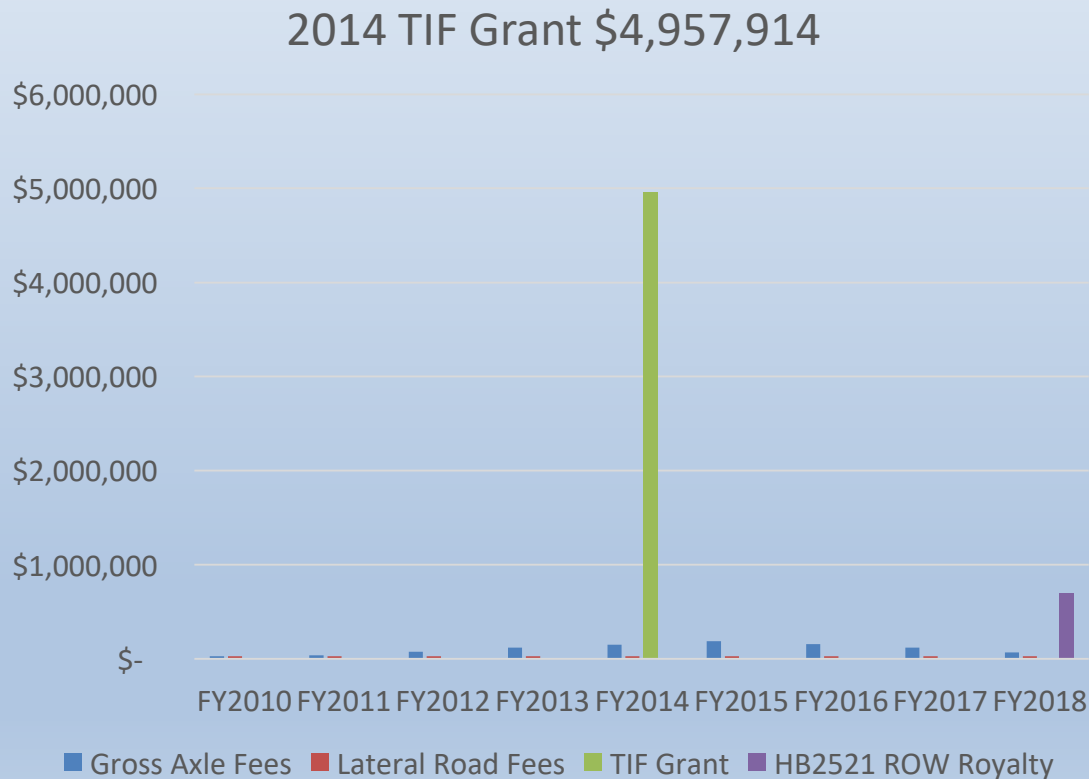

- \$79 of every \$100 will be collected from oil and gas interests (split by 80:20 O&G Lease)
- \$ 4 of every \$100 will be collected from the Over 65 and Disabled homesteads
- \$17 of every \$100 will be collected from all other Real Property

State vs. Local Funding for Road Repair

State Funds Received = \$6,132,787

Local Property Tax Budgeted = \$78,570,000

Legislative Proposals for New Revenue

- **House Bill 4231** by Rep. James White would redirect two percent of the state production tax to a trust fund outside of the appropriation process and return it to the county of origin for road repair and maintenance. If this proposal was the law during 2013 to 2017, DeWitt County would have received about \$23 million over five years for road repair and maintenance.
- **House Bill 3614** by Rep. Geanie Morrison would eliminate a tax loophole provided to oil and gas companies by treating “new minerals” as being equal to “new improvements” in the calculation of the effective tax rate.
